## **RANKING EXPLAINED**

**USA Karate uses a National Ranking System (NRS) for all athletes under 18 years of age competing in sanctioned events.**

**Athletes will be ranked using the ranking points for the competitive category they are in. Promoters will be required to report results from each category to USA Karate within 5 days of the competition of the sanctioned event. Once the results are reported from the promoter, USA Karate will update the NRS and post to the USA Karate websites and social media pages.**

**Athlete Ranking Points are awarded based on event level as follows: In addition to awarding ranking points for participating athletes, USA Karate will award ranking points for participating Referees. These points will help USA Karate recognize referees and judges who are the most active and supportive of USA Karate-sanctioned events.**

**These ranking points will be used for recognition awards and may be used by USA Karate to identify future leaders in the USA Karate Referee Corps. Referee Ranking Points are awarded based on event level as follows:**

- Level 1 events are awarded 100 points to each participating referee/judge.**
- Level 2 events are awarded 200 points to each participating referee/judge.**
- Level 3 events are awarded 300 points to each participating referee/judge.**
